[doi:[10.1063/1.3241078](https://doi.org/10.1063/1.3241078)]

Typographical errors were found in the abstract (line 8, page 073115-1) and summary (line 9, page 073115-3) of our published paper that are related to spin contribution. A “-” was added to superscript of spin contribution value. The sentence should be read as “ $3.4956 \times 10^{16}$  spins/g” and also in line 13 from top, right column of page 073115-3, the value  $3.459 \times 10^{16}$  spins/g must be read as “ $3.4956 \times 10^{16}$  spins/g.”
